WHO AM I?

Im a 19 year old who's very passionate about programming, Im currently doing my Bachelor's degree in computer science & math, I currently work at McDonalds as a shift manager but I desire to work in hitech to improve my skills and learn new technologies/skills

JavaScript

Python

Java

Dart

C#

C

Vim   Linux   Bash   VSCode   LATEX   ReactJs   MySQL

PROJECTS

2020 – 2021

Trackify

Trackify is a music service that logs users' activity on Spotify to show them the artists/albums/tracks they listen to the most, it shows full playback history, monthly/weekly/daily charts for users, it makes use of MySQL to save the data and uses Python for the backend and vanilla Javascript/HTML/CSS for the frontend, it runs on a DigitalOcean droplet that runs Ubuntu and NginX to make the service available for the World Wide Web, I have also written an android app using Flutter for it and it looks and works really great, all the source code can be found on my github page

```
Python•Flask•Ninja2  /  MySQL  /  Javascript•HTML•CSS  /  Linux•DigitalOcean•NginX
```

2021

Portfolio

This project was made to demonstrate my skillset and the experience i have gained after 4 years of passion towards computer science, it also includes this resume which was made using Latex

```
ReactJs  /  Node.js  /  LATEX
```

2018 - 2022

many small projects

Ever since I turned 16 studying computer science has become my main activity and my main hobby/passion and I have worked on many small projects to try and understand different aspects of different subjects including math/science/programming and everything ive done I did out of passion and curiousity

EDUCATION

2018 – 2020

Bagrut   **Atid Highschool - Taybeh**

I finished my Bagrut with an average of 110, I studied physics and computer science and as usual I was one of the top students in multiple classes including math, physics and computer science

2021

Bachelor's Degree   **Netanya Academic College**

This semester Im doing 5 courses and I have 4 courses done already with grades of: 97, 95, 83, 95 the courses I have finished were on assembly, OOP (in Java) and C, Im going for my masters degree right after Im done with my bachelor's degree

LANGUAGES

Arabic - native
English - proficient
Hebrew - proficient

HOBBIES

programming, listening to music, studying math and doing sports

OTHER INTERESTS

Artificial Intelligence
Cryptography
Quantum Computing
